Subj: Support request for tablet piloting at bar area

Dear Alex,

As discussed in recent meeting, Mr. Omar was suggesting to expand the tablet rollout to all dining sections.

My concern is that the project will require more time and will burst the budget allocated. On top of that fixing issues will be a nightmare should errors happen and cause customer dissatisfaction later.

Therefore I request for your support to convince Omar and Deanna to start small before scaling up.

Thanks and awaiting your favorable reply.
